# HAIR GROWTH SERUM, SHAMPOO & CONDITIONER

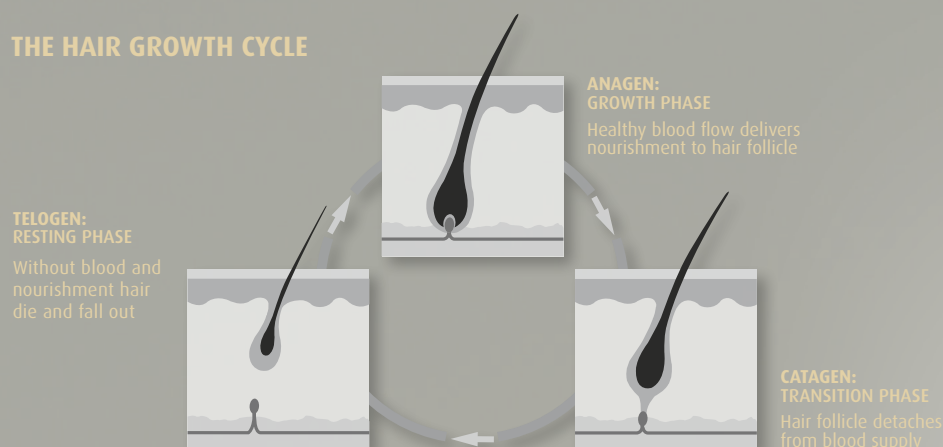

Advanced Anti-Hairloss Formula  
with Certified Organic Ingredients

A clinically proven hair growth system, with certified organic Aloe Vera, Olive Fruit Extract, Almond Oil, Ginger Root, Rose Flower Water, Pure Silk and other highly beneficial oils and natural extracts to help prevent hair loss and stimulate natural hair regrowth. A combination of select premium active ingredients penetrates deep into the scalp to stimulate hair follicles and keep roots strong while increasing thickness of individual hair strands.

A major cause of hair loss is attributed to DHT (Dihydrotestosterone), a chemical derivative of testosterone. DHT undermines the absorption of essential nutrients. The NATULIQUE Hair Growth System facilitates the effective communication of cells, holding them together to prevent the effects of DHT. Furthermore, the NATULIQUE Hair Growth System increases blood flow to the scalp, allowing the skin and follicles to be well nourished for increased hair growth and stronger, healthier hair and scalp.

## THE HAIR GROWTH CYCLE

## With patented Scandinavian Anti-Hairloss BIOSCIENCE

Advanced Scandinavian anti-hairloss BioScience combines Apigenin, Oleanolic Acid and Vitaminated Matrikine at a molecular level for a powerful solution that helps to stop hair loss and strengthen the hair roots while regenerating the hair follicles. To help facilitate long lasting protection and provide reparative effects, added patented Procapilactivates the genes responsible for tissue repair mechanisms.

Recommended to combat and prevent hairloss, and stimulate  
new hair growth for both men and women of all ages.
